

**All prices are from Amazon unless otherwise indicated. These prices are for Prime members, so if you are not a Prime member, the prices might be different. Jerry's and Dick Blick's and Dharma Trading and Michael's are other sources as well.**

**If you need to order anything from Galen Berry, do so as soon as you register for the class. He is a two-person operation and needs time to make his pieces and mail them out. Do NOT try to make a marbling comb on your own - I have tried to do it myself and while it looks like it should be easy as can be, it is not. It is worth the \$15.00!!!**
